

SUBARU 4WD CLUB OF SOUTH AUSTRALIA (INC)

UHF CHANNEL GUIDE

The 2-way radio channel normally used by the Subaru 4WD Club is UHF Ch 10.

With the introduction a few years ago of 80 channel UHF radios, more channels are available for general use. The special use channels between Ch 1 and Ch 40 have not changed.

USE	UHF CHANNELS	COMMENTS
Initial Call	11	To call or locate another station. Parties then switch to another channel to converse.
Conversations	9; 12-17; 19-21; 24-30; 39; 49-60; 64-70; 79-80	Used for general conversations between stations.
4WD Users	10	Generally used by 4WD Clubs and groups.
Caravanners & Campers	18	Holiday makers and travelers when in convoy and in national parks.
Highway Communications	40	Mainly used by truck drivers and other regular highway users. Language may be rather strong.
Emergency Calling	5	Can only be used in an emergency. Used in Duplex Mode to widen the area of communication through a repeater station.
Repeaters Established by Law	1 - 8; 41-48	Will occupy 2 channels when in use, eg. 1 & 31; through to 8 & 38. Should be avoided unless in an emergency.
Data Transmission	22 & 23	No voice transmissions allowed on these two channels.
Reserved	31-38; 61-63; 71-78	Reserved for repeaters and future expansion - do not use.
